

License Processing Solutions

NewVision's License Processing modules automate the processing of Passports, Dog Licenses, Marriage Licenses and Pistol Permits. The modules include functions to store the various licensing data and images, to collect and disburse funds and to electronically record final documents to update NewVision's Official Records System or an alternative records management system.

Supporting Licensing Processes...

Passport Processing

- Supports all functions required to accept a passport application collect required fees and produce required reports.
- Ability to process single or multiple passports per transaction.
- Produces transmittal and statistical reports required by the County and US Department of State.
- Ability to accept cash, checks or credit cards for County fees and checks for payment of US Department of State passport fees.

Marriage Licenses

- The marriage license module supports the required marriage license functions including:
 - Data Entry
 - Fee Collection
 - License Issuance
 - License Recording and Retrieval

Pistol Permits

- Supports all functions required to process a pistol permit application and produce required reports.
- Tracks pistol permit application, background history checks and permit issuance history.
- Standard reporting included can be customized to meet specific County and State requirements.

Dog Licenses

- Allows the user to easily collect and enter information for a new license and to print the license form.
- Allows the user to search for dogs (or kennels) by various criteria.
- Produces annual renewal notices.
- Produces standard reports including a financial summary of fees received.
